FLAMINGO AVIATION SERVICES

RENDERING HIGH-QUALITY AND COST-EFFECTIVE FREIGHT FORWARDING SERVICES

AMBRESH KAUTAL
MANAGING DIRECTOR

customized solutions as per the clients' requirements.

Improving operational efficiency & customer loyalty

Freight forwarding companies must take the right technical measures to meet various requirements of clients as it helps in building strong customer relationships. Therefore, Flamingo Aviation has invested heavily in technology, since it has not only helped the company in improving its operational efficiency but also gain customer loyalty.

A wide range of services

The global freight forwarding market size is anticipated to reach USD 207 billion by 2026. As an integral 3PL services segment, the global 3PL industry is experiencing growth primarily owing to the increasing e-commerce and trade activities. Since Freight forwarding is a price-conscious market clients look for freight forwarding companies that provide high-quality service for lower prices, render door-to-door services and respond quickly to customer queries as it enhances customer satisfaction.

Perfectly understanding the aforementioned requirements of the clients, Bangalore-based Flamingo Aviation Services offer the best freight forwarding services at very low prices. Flamingo is one of the largest global freight forwarders operating within a worldwide network. Being in the freight industry since 2008, Flamingo Aviation Services has developed into one of the largest international logistics providers. The company offers extended support functions to the client's facilities and provides

In sea freight, Flamingo has its multimodal license that has been certified by the Ministry of shipping Government of India. The company specializes in LCL/FCL/REEFER CONTAINER AND SPECIAL equipment worldwide. Flamingo has been certified by the international air transport association to move shipments by air and offers airport to airport, door to airport, and door to door services in 190 countries worldwide.

While the freight forwarding industry is a very crowded market, Flamingo Aviation services have been able to identify the key sectors that it wants to specialize in such as machinery/granite/medical equipment and has put all its recourse to excel in it.

A team of highly-qualified customs clearance specialists

Flamingo Aviation's team for custom clearance is highly qualified. The Customs clearance specialists of the company possess extensive knowledge and years of experience in the customs clearance field. The company offers product specialists in customs

clearance and extends support functions in the clients' facilities.

The Journey

Since its inception in 2008, the company has been observing a year-on-year growth rate of 30 percent and has more than 100 clientele across the globe. Currently, Flamingo is serving and moving shipments to more than 50 countries.

Our customer retention rate is 95 percent and we can proudly say that we still have our oldest customers as our clients even today

"Our customer retention rate is 95 percent and we can proudly say that we still have our oldest customers as our clients even today and this is owing to our Corporate DNA which is 'People first'", says Ambresh Kautal, Managing Director, Flamingo Aviation Services.

"We strive for perfection every day and innovation and entrepreneurship. Over the years, I have achieved my aim of building a company where people love to come and work, create a brand wherein the customers feel their shipments are handled professionally and receive value for money," he adds.

The future looks promising for Flamingo Aviation, as the company is looking to invest in new technologies. It is also planning to focus on talent development and create an ecosystem for talented candidates, who would get an opportunity to prove themselves. [In](#)
